+353 894642759 — Dublin, Ireland — [pradeepyc886@gmail.com](mailto:pradeepyc886@gmail.com) — [linkedin](#)

## PROFILE

Strategy-focused postgraduate (MSc Management – Strategy, DCU) with experience supporting decision-making through structured analysis, risk awareness, and insight development. Skilled in breaking down ambiguous business problems, analysing performance and control gaps, and translating data into clear, executive-ready outputs. Combines a commerce background with applied analytics to support strategy execution and advisory work.

## EDUCATION

**MSc Management (Strategy)**, Dublin City University Jan 2025 – Dec 2025  
Key focus areas: Strategy execution, governance, and data-driven decision-making.

**Bachelor of Commerce (Computer Applications)**, Andhra University Dec 2021 – Jul 2024

## SKILLS

- **Strategy & Advisory:** Structured problem solving, hypothesis-driven analysis, performance and execution gap identification.
- **Analytics & Decision Support:** Data analysis for management decision-making, dashboarding, and performance tracking.
- **Technical:** Advanced Excel, Power BI, Python (Pandas), SQL, data visualization.
- **Professional Communication:** Executive-ready reporting, clear presentations, and explaining complex insights to non-technical stakeholders.

## PROJECT EXPERIENCE

**Global Education Disparities – Strategy & Risk Analysis** ([Live Report](#))

- Analysed multi-year global data to identify regional performance gaps and execution risks affecting education outcomes.
- Framed analysis around decision and policy risks, linking data trends to execution challenges.
- Cleaned datasets using Python (pandas) to ensure consistency and audit-ready reliability.
- Delivered visual dashboards with practical recommendations for long-term sustainability.

## INTERNSHIP EXPERIENCE

**Consulting & Analytics Intern — Data Pro** Jan 2024 – July 2024

- Translated open-ended operational challenges into structured analytical work plans to support management decision-making.
- Analysed performance data across 5+ metrics to identify execution gaps and decision risks.
- Presented concise insights and recommendations adopted in weekly management reviews.
- Built automated Excel and Power BI reports, reducing manual reporting effort by 20–30%.

## CERTIFICATIONS & PROFESSIONAL LEARNING

- **Oracle Cloud Infrastructure – AI Foundations (2025):** Data governance principles and technology risk awareness.
- **Accenture North America – Data Analytics & Visualisation (2024):** Structured problem solving and client-style analysis.
